

CS 465 Project Rubric (SA)

Course: CS-465-12361-M01 Full Stack Development I 2026 C-4 (Jun - Aug)

Criteria	Exceeds Expectations	Meets Expectations	Partially Meets Expectations	Does Not Meet Expectations	Criterion Score
Executive Summary	5 points Exceeds expectations in an exceptionally clear, insightful, sophisticated, or creative manner	4.25 points Describes the appropriate architecture of a full stack web application, referencing the use of the MEAN stack	2.75 points Shows progress toward meeting expectations, but with errors or omissions; areas for improvement may include missing key logical components, data storage, or technologies used	0 points Does not attempt criterion	/ 5
System Architecture View: Component Diagram	5 points N/A This level is not applicable for grading of this criterion.	5 points Describes the overall system architecture of the web application, identifying the significant components and their relationships	2.75 points Shows progress toward meeting expectations, but with errors or omissions; areas for improvement may include missing key components or technologies	0 points Does not attempt criterion	/ 5

Criteria	Exceeds Expectations	Meets Expectations	Partially Meets Expectations	Does Not Meet Expectations	Criterion Score
System Architecture View: Sequence Diagram	5 points N/A This level is not applicable for grading of this criterion.	5 points Illustrates the flow of logic in a web application by completing a sequence diagram	2.75 points Shows progress toward meeting expectations, but with errors or omissions; areas for improvement may include missing components of client- or server-side interactions, incorrect flow of messages	0 points Does not attempt criterion	/ 5
Customer-Facing Website	5 points N/A This level is not applicable for grading of this criterion.	5 points Develops and runs a public website that meets software requirements	2.75 points Shows progress toward meeting expectations, but with errors or omissions; areas for improvement may include site folders not being restructured properly or models, view, routes, or controllers not completed and functional	0 points Does not attempt criterion	/ 5

Criteria	Exceeds Expectations	Meets Expectations	Partially Meets Expectations	Does Not Meet Expectations	Criterion Score
Render Test Data	5 points N/A This level is not applicable for grading of this criterion.	5 points Utilizes templating engine to render test data dynamically within the website	2.75 points Shows progress toward meeting expectations, but with errors or omissions; areas for improvement may include data not being successfully read and rendered dynamically in views	0 points Does not attempt criterion	/ 5
NoSQL Database	5 points Exceeds expectations in an exceptionally clear, insightful, sophisticated, or creative manner	4.25 points Configures a NoSQL database by describing the metadata schema to a NoSQL database for storing data in the server side of application	2.75 points Shows progress toward meeting expectations, but with errors or omissions; areas for improvement may include missing properties or incorrect data types	0 points Does not attempt criterion	/ 5
Database	15 points N/A This level is not applicable for grading of this criterion.	15 points Integrates a NoSQL database into a software application using existing frameworks	8.25 points Shows progress toward meeting expectations, but with errors or omissions; areas for improvement may include trips collection with all properties and data stored correctly	0 points Does not attempt criterion	/ 15

Criteria	Exceeds Expectations	Meets Expectations	Partially Meets Expectations	Does Not Meet Expectations	Criterion Score
API	15 points N/A This level is not applicable for grading of this criterion.	15 points Builds a RESTful API that retrieves data from a database	8.25 points Shows progress toward meeting expectations, but with errors or omissions; areas for improvement may include routes and endpoints for list trips, add/update trip functions, and data processing	0 points Does not attempt criterion	/ 15
Testing	15 points N/A This level is not applicable for grading of this criterion.	15 points Tests the software application by using input and output to show the application is able to store and retrieve data	8.25 points Shows progress toward meeting expectations, but with errors or omissions; areas for improvement may include correctly testing all requirements and use cases (positive and negative)	0 points Does not attempt criterion	/ 15

Criteria	Exceeds Expectations	Meets Expectations	Partially Meets Expectations	Does Not Meet Expectations	Criterion Score
SPA	15 points Exceeds expectations in an exceptionally clear, insightful, sophisticated, or creative manner	12.75 points Utilizes frameworks to include rich functionality and features in a single-page application to meet software requirements	8.25 points Shows progress toward meeting expectations, but with errors or omissions; areas for improvement may include not utilizing AngularJS components, services, routes, and views to build functional SPA	0 points Does not attempt criterion	/ 15
Security	7 points N/A This level is not applicable for grading of this criterion.	7 points Adds security controls including a login form and applies best practices to ensure authorized access using secure endpoints	3.85 points Shows progress toward meeting expectations, but with errors or omissions; areas for improvement may include not implementing login, not securing SPA, not securing API endpoints	0 points Does not attempt criterion	/ 7

Criteria	Exceeds Expectations	Meets Expectations	Partially Meets Expectations	Does Not Meet Expectations	Criterion Score
Clear Communication	3 points Exceeds expectations with an intentional use of language that promotes a thorough understanding	2.55 points Consistently and effectively communicates in an organized way to a specific audience	1.65 points Shows progress toward meeting expectations, but communication is inconsistent or ineffective in a way that negatively impacts understanding	0 points Shows no evidence of consistent, effective, or organized communication	/ 3

Total	/ 100
